

Corporate Flight Department Business Jet Center

Oakland, CA

Renovation and rehabilitation of an existing WWII era hangar for a corporate flight department facility comprised of a 26,500 SF hangar and 16,400 SF office space/support area. The facility includes executive offices, conference rooms, waiting lounge, pilot/mechanic offices/support areas, and mechanic shop spaces. The original glass hangar doors were refurbished and repaired and an original mural found in the building was retouched and now features prominently in the main stairway. The original exterior aesthetic of the building was maintained as much as possible.

Project Type:
Corporate Flight Department
