

Dassault Falcon Jet

New Castle, DE

Work entailed a phased campus remodel touching nearly all of the 300,000 SF maintenance facility. Spaces remodeled included executive office spaces, customer office spaces, hangar support shops, cabinet shop, upholstery shop, avionics, employee breakroom, employee training suite and existing hangar door glass refinishing. The exterior facades on Hangars 2 & 3 were also remodeled with new exterior siding. New construction on the campus included a new downdraft paint hangar and associated ramp upgrades. Finally, upgrades to the existing fire protection system were performed on all existing hangars.

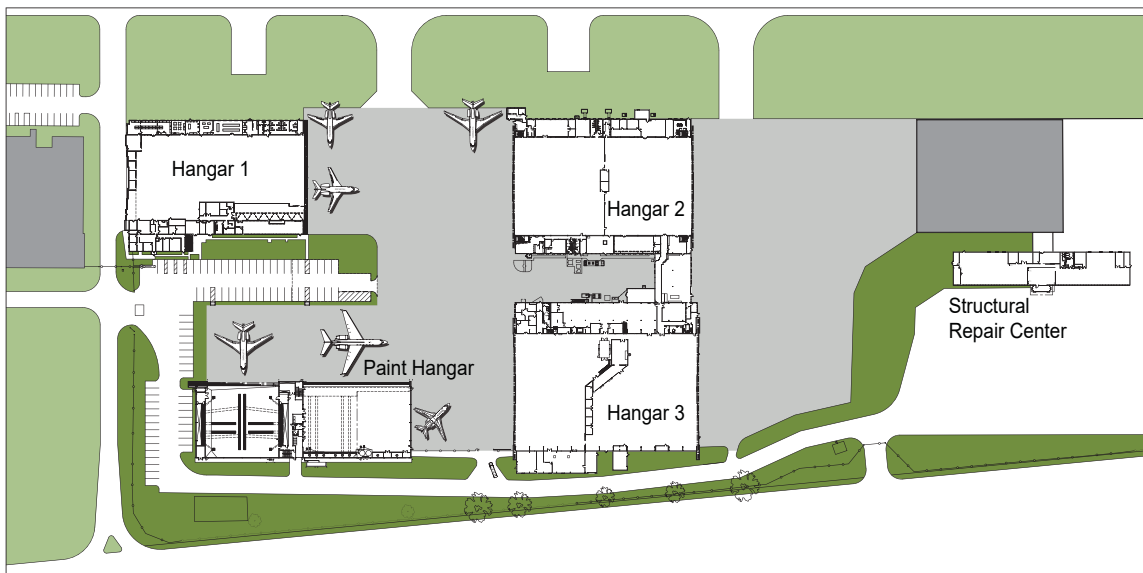

Project Type:
Maintenance & Completions Center

Location:
New Castle, DE

Services:
Architecture / General Contracting

Project Delivery:
Design/Build

Completion Date:
2004
