

Corporate Flight Department

International Paper Company

Memphis, TN

This Corporate Flight Department and Hangar includes a two-story, 10,000 SF Corporate Office, a 20,000 SF Hangar, and 3,000 SF lean-to for equipment storage and fire protection spaces. The hangar is designed to accommodate the future expansion of the corporate flight fleet. The office is designed to accommodate the necessary functions of the corporate flight department. The first floor of the corporate office space includes an executive customer lobby, executive customer offices and conference room, employee break room, and a maintenance shop with office and parts storage; while the second floor includes a corporate office suite, conference room, pilots lounge and work space and an employee exercise room.
