

Completions Center

Pilatus

Broomfield, CO

The project consists of the design construction of a new Completions Center for Pilatus Business Aircraft.

The new facility includes site work, including an access road, aircraft ramp, truck dock area, parking lot, and the extension of site utilities to service the building. The building includes a large completions hangar and separate delivery hangar. The facility has a large corporate office area with conference rooms and support spaces. The building also includes a large shop area and warehouse area. The structure for the facility is based on a pre-engineered metal building with a variety of exterior cladding systems. The total square footage of the two story building is 112,700 SF.
