

Fixed Base Operator

# Jet Aviation

Bozeman, MT

Architectural Services for Jet Aviation for a new Aircraft Storage Hangar attached to an existing FBO. The project includes the demolition of an existing hangar and the construction of a new aircraft hangar including a GSE Storage space, line support spaces, offices, a snowmelt boiler room, and a new fire protection system for the hangar and GSE spaces. The new hangar space totals 39,660 SF with an additional 1,500 SF of GSE support space.
