

Paint Hangar
Dassault Falcon Jet

New Castle, DE

The paint hangar facility is comprised of a state of the art, "dual flow balanced" down draft paint hangar, a sand/strip hangar bay, and a cross-flow priming/stripping bay. Centrally located within the 33,350 SF footprint is a two story support space including offices, storage rooms and a breakroom. The total square footage of the building is 37,900 SF.
